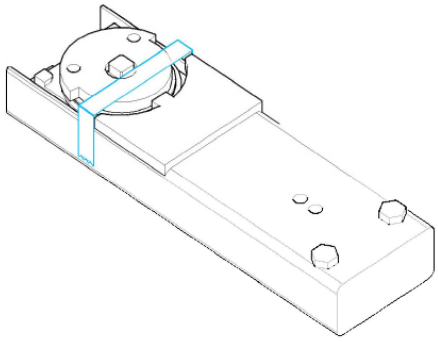
Lockey® TB-950 Magnum

Concealed, high use, pedestrian gate closer
(with hydraulic controls for closing & latching speed)

Step 6

After galvanizing/painting, grease roller bearing, and replace parts into closer housing #2 placing the drive plate #5 to the correct handing and then place a small piece of adhesive tape across drive plate #5 and closer housing #2 to secure while mounting gate

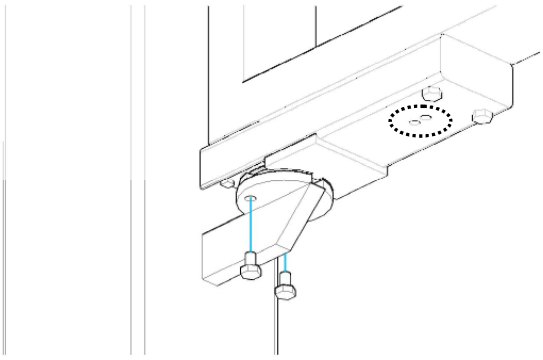


Step 7

Mount gate to post

Step 8

Adjust closing speed (hole nearest post) and latching speed (hole farthest from post) using 3mm Allen key



Maintenance

The regularity of maintenance should reflect the frequency of use, environment and the likelihood of vandalism or misuse. Should you require more information about gate closer maintenance, please contact us using the contact information at the bottom of this page.

The following checks and lubrication should be regularly completed:

1) Check to ensure all fastenings are secure
2) Check function of closer
3) Lubricate roller bearing
